HUSK4000CUT

Husqvarna K 4000 Cut-n-Break

Our Cut-n-Break method is the natural choice when you need to cut deep but want a machine with low tool and maintenance costs. The K 4000 Cut-n-Break enables you to cut as deep as 400 mm from one side. Suitable for flush cutting close to walls and floors as well as for smaller jobs like window openings where you want to avoid overcutting at the corners.

Husqvarna K 760 Cut-n-Break

Our Cut-n-Break method is the natural choice when you need to cut deep without overcutting at the corners. The K 760 Cut-n-Break enables you to cut as deep as 16" from one side. The two high-speed blades make a core in the saw cut, which can then easily be broken off using the accompanying breaking tool. This way you easily work your way through the material, at a very low diamond tool and maintenance cost. Delivered with twin blades and a breaking tool.

Husqvarna LF 60 LAT

LF 60 LAT is a lightweight, fast-operating forward plate compactor, designed for efficient compaction of asphalt and soil. It is ideal for repair jobs and maintenance work such as driveways and parking lots. The large water tank features an oversized cap to enable less frequent and faster refills. The machine is easy to clean, leaves no marks on the pavement and uses whatever water is available on-site.

- Engine Model: GX100
- Output Power: 2.1kW
- Speed: 25 m/min
- Weight: 67kg

HUSK770

The Husqvarna K 770 is a powerful all-round power cutter with features that make it one of the best power cutters on the market. Equipped with semi-automatic SmartTension™ system allows for optimal power transmission, minimum wear and maximum belt life. The light weight, outstanding power-to-weight ratio, the reliable start and exceptionally low vibrations mean less strain and maximized productivity. Suitable for road work and easy to cut in a straight or curved track or close to sidewalk when used with KV7 trolley.

- Cutting Depth max: 125mm
- Blade Diameter max: 350mm
- Output Power 3.7 kW

Cutting trolleys

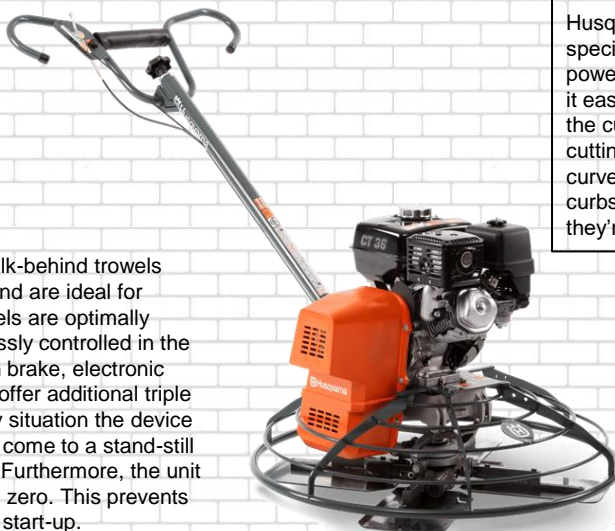

Husqvarna KV760

Husqvarna cutting carts are designed specifically for Husqvarna's handheld gas power cutters. The quick connections make it easy to install the cutter on the cart, and the cutting depth is easy to adjust. With a cutting cart it's easy to cut in straight or curved lines, and close to walls and curbstones. The design is compact and they're easy to fold up and transport.

Husqvarna CT 36

- Engine Model: GX160
- Output Power: 3.6kW
- Speed: 33 m/min
- Fuel tank: 3.1 L

The models of the Husqvarna CT 36 walk-behind trowels feature a trowel diameter of 36 inches and are ideal for finishing medium-sized areas. The trowels are optimally balanced, therefore they can be effortlessly controlled in the wide range of speeds. The transmission brake, electronic safety switch and engine speed sensor offer additional triple protection for the user. In an emergency situation the device will simply switch off and the handle will come to a stand-still after no more than a three-quarter turn. Furthermore, the unit will only start if the throttle lever is set to zero. This prevents an inadvertent rotation of the handle on start-up.
